

## 'Quality of Life' (QoL) Professional Network and Support Group via Zoom

Are you interested in improving 'QoL' outcomes for your students and families?

Are you looking to find new and innovative ways to hear student and family voice?

Are you looking for ways to demonstrate progress over time on these issues, which are traditionally hard to measure?

Are you looking to build an evidence base for your curriculum, operational and strategic planning?

If so, you might want to join a network of special school practitioners who are actively developing their practice in all these areas. You could join discussions, with like-minded professionals, focussing on the practical and strategic steps needed to develop a QoL approach in your school.

Swalcliffe Park School in Oxfordshire has developed a QoL specialism over recent years in just these questions and now invites all SWALSS member schools to join their online Quality of Life (QoL) Network meetings at a discounted SWALSS rate. Annual membership includes termly online workshops (2 hours), access to the QoL YouTube channel and an introduction to the survey and analysis tools and a wide range of supporting resources (available for additional purchase). Workshops feature guest speakers, discussions, problem solving and best practice sharing, curriculum planning support, and much more.....

Our QoL Support Group is facilitated by Kiran Hingorani, Swalcliffe School CEO.

Delivery is via Zoom.
